

AUGUST 3-8 • RALEIGH • NORTH CAROLINA

EMC NEWS EXTRA! EXTRA!

Issue #2 | January 22, 2014
2014 IEEE EMC Symposium on EMC - Raleigh NC

Call for Papers Deadline Extended to January 25!

This Month's Feature: THE GLOBAL UNIVERSITY

JOIN and LEARN! This year's Global EMC and Signal Integrity (SI) University brings eighteen hours of instruction on advanced EMC and SI related topics, running in parallel with our traditional technical sessions. Classes are taught by an international panel of educators, who have been selected for this program based on their reputation for excellence in areas of practical importance to EMC engineers.

Learn from the best in the business!

2014 EMCS & SI Schedule

[Call for Papers!](#) EXTENDED: January 25, 2014!

The 2014 IEEE International Symposium on Electromagnetic Compatibility (EMC) will be held in Raleigh, North Carolina from **August 3-8, 2014**. This symposium is sponsored by the IEEE

January's Lip-Smacking Recipe! Ribbit, Not Ribs!

Classic Amphibian mmm-mm!*

Ingredients:

- 2lbs. Frog legs
- 1C Olive oil
- 2C Dry white wine
- ¼C Cilantro (chopped)
- ½C Curly leaf parsley (chopped)
- 4cloves Garlic (chopped)
- 2lg Lemons (juiced)
- 2C Fresh bread crumbs (just pass some fresh bread over a box grater)
- 1T Fresh ground black pepper
- 2T Kosher salt
- 1t Cayenne pepper
- 1T Paprika

Directions:

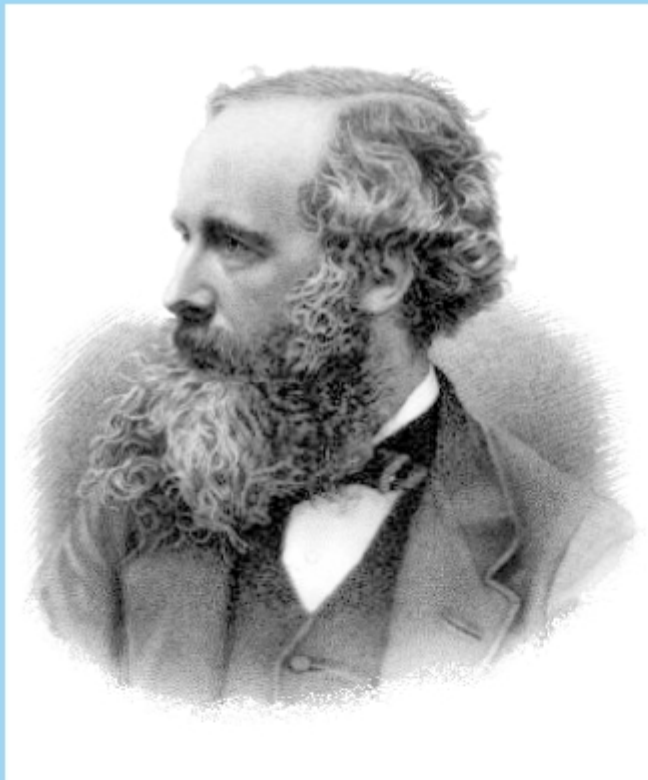

In a large glass or plastic container combine all ingredients except the bread crumbs and frog legs. Add the frog legs, bread crumbs, and toss well the rest

EMC Society and features an **embedded Signal and Power Integrity Conference**. Visit the the exhibit hall with hundreds of booths filled with latest products, equipment and services. Concurrent workshops and tutorials and demonstrations to fire the imagination! In addition, there are many collateral industry and professional meetings thorough out the week. **Network!** at numerous formal and informal opportunities to greet old friends, meet new friends, experts, professionals and industry colleagues.

Maxwell's Eqns Turn 150!

Classical Physicist doesn't look a day over 48

Celebrate the *sesquicentennial* of Maxwell's Equations at the 2014 EMC & SIPI Conference. Hear learned distinguished lecturers and experts in the subtleties of the vector product describe the ongoing importance of those four (or eight) little equations that say, simply, "I ∇ EMC."

the coat.

Cover and allow to marinade in the refrigerator for at least 3 hours or up to 3 days.

Remove the container one hour prior to cooking.

Prepare a charcoal fire similar to one for grilling steaks.

Grill the frog legs for 1-1½ minutes on each side and remove to a covered container.

NC's Beloved Lighthouses

Currituck Beach Lighthouse - WOW!

Finished on Dec 1, 1875, she cost \$178,000 to complete

Height: 162 feet (49.4 m)

214 steps to reach the top

Constructed with ~1E+6 bricks!

Find her here:

- 36° 22' 36" N latitude

- 75° 49' 51" W longitude

Light is operational and visible for 19 miles

Thickness of wall at base is 5 feet 8 inches

Currituck Lighthouse was the last brick lighthouse built on the Outer Banks.
